Dear Parents and Carers,

RE: Rain Letter

We are writing to inform you of our plans for tomorrow should the forecasted inclement weather materialise. Current forecasts indicate that rain may begin from approximately 4:00 a.m. onwards, and we want to ensure that appropriate measures are in place to keep all pupils safe, comfortable, and as dry as possible throughout the school day.

If the forecast proves accurate and significant rainfall occurs, we will implement adjusted break-time arrangements. Pupils will remain indoors during break times and will report to their registration rooms with their form tutors. This is not intended as an additional lesson period; rather, it is simply a practical measure to provide pupils with a safe, supervised environment while avoiding unnecessary exposure to the weather.

Pupils will still be permitted to access the canteen to purchase food and drinks if required. This will be managed in a controlled manner to ensure the safe movement of pupils around the school. Form tutors will also facilitate access to washroom facilities as needed throughout the break period.

Unfortunately, the combination of heavy rainfall, limited sheltered outdoor areas, and the challenges posed by drainage systems across Bahrain can result in significant standing water and large puddles around our campus. Under these circumstances, we believe that keeping pupils indoors during breaks is the safest and most sensible option.

While some exposure to the weather may naturally occur as pupils move between buildings for lessons, our aim is to minimise this wherever possible and to ensure pupils remain safe throughout the day.

We would also like to remind Year 11 families that external examinations begin at 12:00 p.m. as scheduled. These examinations are set and administered according to the published timetable from Pearson and therefore cannot be postponed or rescheduled.

Should the forecasted rain occur, we ask all families to take extra care when travelling to school. Please allow additional time for your journey and prioritise safety to ensure that both you and your children arrive safely.

Thank you for your understanding and support. We will continue to monitor conditions closely and will communicate any further updates should they become necessary.

Yours sincerely,

Craig Moreton, BA (Hons) PGCE NPQH
Head of Secondary
